

CORPORATE GOVERNANCE REPORT BIGTINCAN HOLDINGS LIMITED (“THE COMPANY”)

Introduction

The Company has adopted comprehensive systems of control and accountability as the basis for the administration of corporate governance. The Board is committed to administering the policies and procedures with openness and integrity and pursuing the true spirit of corporate governance commensurate with the Company's needs. To the extent they are applicable, the Company has adopted the Eight Essential *Corporate Governance Principles and Best Practice Recommendations* (“Recommendations”) as published by ASX Corporate Governance Council. Where, after due consideration, the Company's corporate governance practices depart from the Recommendations, the Board has offered full disclosure of the nature of, and reason for, the adoption of its own practice.

The Company is considered a ‘micro-cap’ listing, and accordingly some of the principles and recommendations are unable to be achieved in a cost effective or practical manner, having regard to the resources available. These issues are still considered important in our corporate governance system, and alternate but less formal policies exist to ensure integrity in these areas. The Council recognises that the same efficiencies experienced by larger entities may not be appropriate for smaller companies by adopting certain principles or recommendations.

As the Company's activities develop in size, nature and scope, the size of the Board and the implementation of additional corporate governance structures will be given further consideration.

Principle 1 – Lay Solid Foundations for Management and Oversight

The skills, experience and expertise relevant to the position of each Director who is in office at the date of the financial report and their term of office are detailed in the Directors' Report in the Annual Report.

The Company undertakes the appropriate checks before making new appointments to the Board.

The Company has written service agreements with each Director setting out the terms of their appointment.

The Company has a written service agreement with the Company Secretary and the Company Secretary is accountable directly to the Board on all matters to do with the proper functioning of the Board.

The Board is responsible for the strategic direction of the Company, establishing goals for management and monitoring the achievement of these goals, monitoring the overall corporate governance of the Company and ensuring that shareholder value is increased.

*Principle 1
Recommendation 1.1,
Notification of Departure:*

The Company has not formally disclosed the functions reserved to the Board and those delegated to senior executives;

Explanation for Departure:

The Board recognises the importance of distinguishing between the respective roles and responsibilities of the Board and management, and evaluating the performance of senior executives. The Board has established a framework for the management of the Company and the roles and responsibilities of the Board and management. Previously, due to the small size of the Board and of the Company, the Board did not think that it was necessary to formally document the roles of the Board and management as these roles were clearly understood by all members of the Board and management.

*Recommendation 1.5,
Notification of Departure:*

The Company has not established and disclosed a diversity policy.

Explanation for Departure:

The Board considers that at this time no efficiencies or other benefits would be gained by introducing a formal diversity policy. In the future, as the Company grows and increases in size and activity, the Board will consider the establishment of a formal diversity policy.

*Recommendations 1.6 and 1.7,
Notification of Departure:*

The Company does not have nor disclose a formal process for evaluating the performance of the Board, individual directors or senior executives.

Explanation for Departure:

The Board is responsible for the strategic direction of the Company, establishing goals for management and monitoring the achievement of these goals. The Board considers that at this time no efficiencies or other benefits would be gained by introducing a formal evaluation policy. The Board monitors the overall corporate governance of the Company and ensuring that shareholder value is increased. In the future as the Company grows and increases in size and activity, the Board will consider establishment of formal Board, individual director and senior management evaluation processes.

Principle 2 – Structure the Board to add Value

The Chairman, Mr Amos, and Mr Stevenson are considered by the Board to be independent directors. The determination by the Board as to whether individual directors are independent is a matter of judgment. The Board considers the relationships the independent directors have with the Company do not materially impact on their independence. In determining the materiality of these relationships, the Board has considered both quantitative and qualitative factors. In determining the quantitative factors the Board considers that a relationship is immaterial where it is equal to or less than 5% of the base amount. In applying this level of materiality to the relationship of the independent directors in the case of shareholders and suppliers, the Board considers that the independent directors' interest is less than 5% of the base amount. In respect to the qualitative measures the Board has considered the factors affecting the independent directors' relationship with the Company and consider these qualitative factors to be immaterial in the assessment of their independence.

All share options to be issued to Directors require shareholder approval before being issued.

The amounts of remuneration for all Directors, including monetary and non-monetary components, are detailed in the Directors Report under the key management personnel remuneration heading. All remuneration paid to Executives is valued at the cost to the Company and expenses.
